How it works

There are 3 ways to set up a project with us:

1. **Booking:** You can book a specific talent with this fulfillment type. You can browse our samples and select the Bunny Pro that matches your project needs.

1. **Contest:** three Bunny Pros will audition for your project and you'll select -and pay- for the one you like the most. If you're not satisfied with any, you can request three more at no extra cost!

1. **Speedy:** The fastest way to receive a project is by creating a Speedy. This is what we recommend when you are in a rush. When you post a Speedy, we match your projects' brief with the best available Pro and deliver within hours.

Buy subscription plan

Starting from **USD 959/month**, buy an hour-based value-added subscription plan. Run unlimited projects at the same time with the support of your own project coordinator.
