## **Our integration solutions**

### **Provide creative services, no additional costs**

Scaling up is simple with Bunny Studio.

Our API & Widget integrations allow you to add and automate audio ads, voice-over and audio post-production services on your platform.

# API Integration

## For unrivaled flexibility

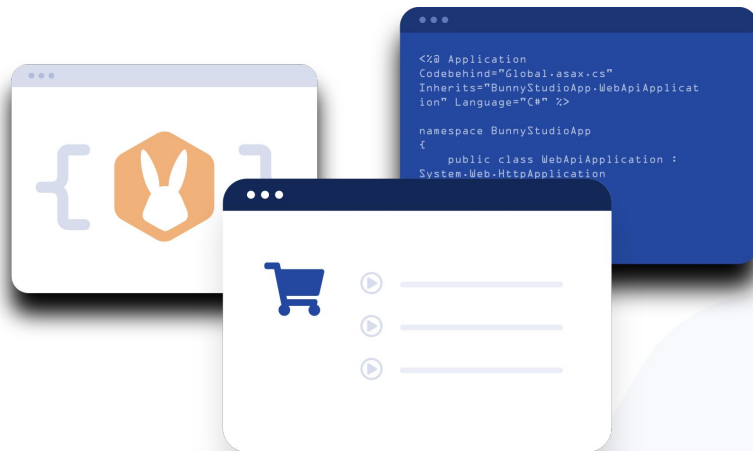

Build a white-labelled intermediary that enables project posting, status updates, and approvals from your platform.

### Benefits:

Made for brands and apps with in-house development capabilities.

- Provide audio ads, voice overs, and post-production
- White-labelled creatives
- 2 to 3 weeks setup time
- Fully customizable interface
- Flexible workflow integration

# Widget Integration

## For fast no-developer setup

Embed a HTML script built by us into your site. Enable your clients to get instant quotes and create projects from your platform.

### Benefits:

Designed for indie companies and startups. Simply copy and paste our code, no complex development required.

- Provide audio ads
- White label option available
- Get HTML code in 12 hours, set up instantly
- Customizable interface blends into your platform
- Bunny Studio workflow and project management

[Learn more about widget integration here](#)

The screenshot shows a web interface for project management. At the top, it says "We've received your project!" followed by a "Continue" button. Below that is a "Project information" section with fields for "Project title", "Ad length", "Total", and "Remarks". At the bottom is a "Voice over" section with fields for "Language" and "Gender and age".

## **See our widget in action**

**Earn easy revenue for every audio ad  
you sell through our widget**

# API or Widget?

	API	Widget
<b>Services</b>	Audio ads, voice overs, and post-production	Audio ads
<b>Time to integrate</b>	It usually takes between 2 and 3 weeks to integrate	You get the widget code in 12 hours, embed instantly
<b>White-label</b>	Yes	No
<b>Cost</b>	Free	Free
<b>Why to choose it?</b>	It's customizable and flexible	It's easy. Just a plug-and-play integration

# Why should you integrate your business?

## **Seamless scalability**

Expand your existing offering with streamlined access to voice-over and audio post-production services.

## **Pre-vetted creative network**

Access thousands of voices in multiple languages as well as several audio production experts ready to fulfill your clients' needs.

## **Fully managed projects**

Speed up your workflow and increase your efficiency with our streamlined project management that operates behind the scenes.

## **Our platform, your profit**

Integrating adds zero cost, leaving you free to profit using our platform.

## **No setup fees**

There are no additional costs to get started.

## **Blazing speed**

Get projects done in less than 12 hours.

## How do I know which integration is right for me?

### That depends on your in-house resources and creative workflow.

We've designed 2 integration solutions to cater to brands and organizations of all sizes.

If you're looking for a quick setup solution without allocating any resources for development, our **Widget** is the perfect solution. Get a HTML code in 12 hours, embed it, and you're ready to selling services immediately.

If you're an app developer or a brand that have in-house development capabilities, our **API** integration gives you full customization control and workflow flexibility.

## Do I have to manage the integration services I provide?

**Once you've setup the integration, Bunny Studio manages all your clients' projects for you.**

That includes everything from delivering your clients' project to making requested revisions. The only thing you need to do is set up, and our 24/7 technical team is here to support you.

If you're looking for another B2B solution that does not involve integrations, join us as a [Bunny Studio affiliate](#). Our program enables you to earn revenue for every client referred to us through your affiliate link.
